DETAILED ACTION

Acknowledgments

Based on the corrections submitted by the applicant on November 2, 2005, the objections regarding claims 6, 7 and drawings had been withdrawn.

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1 – 7 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. In this case applicant fails to claim proper method for claimed methods. Corrections required. Further, claim 7 appears to contradict claim 1 which sets forth that the top component is actually part of the modular elements.

In claim 1, “established according to a specification format and dimension” (line 4) is vague and indefinite. “Having one and the same structure” (line 6) is confusing.

In claim 6, “according to a pre-established format” (lines 2-3) is vague and indefinite.

Allowable Subject Matter

Claims 1 – 7 appear to be drawn to allowable subject matter however, final determination of allowability for these claims will be made after all the 35 U.S.C. 112 rejections have been corrected.
